

Dear Parent/carer,

If your child is in 7A/DT3 or 7Y/DT3 and currently studying Product Design in Design Technology, they are in the middle of making their own plywood plant pot. We are offering the opportunity to purchase a plant for their pot at the cost price of £1.50. If your child would like to order one, please make the payment through the school gateway by Monday 9th June. If purchased your child will be given the cactus or succulent plant when they bring their plant pot home towards the end of this term.

Kind regards,
The Design Technology Department
