

January 2026

Sparx 'fix'up:

All students in years 7 to 10 have now completed their first in-class assessment in maths. They will be given a personalised feedback sheet showing how well they scored on each of the topics covered in the test.

In addition, each student will have the option to complete a 'fix up' task on Sparx. It is found in the same area as their homework. 'Fix up' sets the students videos and practice questions on the topics they scored lowest on in the assessment, and is a great way for them to improve their weakest topic areas.

Maths club – changes:

Maths club is an opportunity for students to come and complete homework or get help with any topics. The days will be changing from Monday 19th January:

KS3 will run every Monday 3:15 – 4:15 in T22

KS4 will run every Tuesday 3:15 – 4:15 in T23
